

10% FUND FOR PhD STUDENTS' RESEARCH ACTIVITIES

ELIGIBLE EXPENSES

- training sessions at Italian and international Universities and Research Institutes required to employ specific tools or to have access to particular scientific partnerships relevant to the conducted research
- participation in national or international conferences and/or schools
- traveling between consortium and/or related locations to attend specialized seminars away from the PhD students' primary place of employment
- consumables necessary for the specific research activity carried out by the PhD students, the use of scientific equipment, and costs associated with particular research techniques
- inventoriable material (such as didactic and bibliographic materials) that fits the particular requirements of the selected research subjects
- expenses for inviting speakers to conduct seminars for the doctorate, contingent on the approval of the PhD students, who will be individually charged for the related costs
- expenses for inviting speakers to conduct seminars for the doctorate up to a maximum of 20% of the annual fee, regardless of the curriculum chosen by the PhD student. The expenditure report will be split equally among the PhD students who attend the seminar
